

MR14-25

Reach Truck | 1400 - 2500kg

www.yale.com

Yale 
People. Products. Productivity.™

About Yale®

The MR series is the next level in reach truck productivity, delivered through innovation, technology and ergonomic design.

As your customers demand more from you, you should be able to expect more from your reach trucks. With over 80 years in the material handling industry, the Yale MR series delivers on this promise and features even more benefits than before including:

- Innovative technology including laser positioning, dual CANbus technology, 'get home' function and touch screen display
- Flexibility with seven models in capacities from 1400kg to 2500kg and lift heights up to 12.65m
- Three chassis available to match your application
- Productivity with higher travel, lift and lower speeds
- Operator comfort with unique ergonomic controls and enhanced visibility
- Greater efficiency with easier serviceability and lower costs of ownership
- Aftermarket service and support

Support for the Yale MR series Reach Trucks can be found throughout the Asia-Pacific region – provided by a big regional footprint stretching from Australia and New Zealand, on through Singapore, Malaysia, Indonesia, Thailand, South Korea, Taiwan, Vietnam and the Philippines.

For more information please contact your local dealer.

▶ Laser Positioning*

The laser projects a red dot and line from the location on the fork carriage, enabling the operator to clearly see where the forks need to be positioned to lift the pallet securely. The laser is automatically switched on when the mast lifts beyond free lift (around 2m).

▶ Ergonomic Controls*

The joystick matches the natural handgrip of the operator, providing easy access for all lift functions, forward/reverse, and the horn. The AccuTouch mini-lever module with built-in controls maximises operator familiarity, while additional function buttons are integrated into the adjustable armrest.

▶ Premium Display*

Industry first premium touch screen display allows operators to be in full control of the truck at all times. The display provides PIN access, height preselect, fleet management information, weight indication, lift interrupt override and creep speed.

▶ Advanced Diagnostics

A single plug-in service point connects your engineer's laptop to our advanced truck diagnostics, giving them instant access to essential service information. On-board, the unique dual integrated CANbus technology ensures fast identification of faults while the operator's display also provides critical status of components and error codes.

MR14-25 Reach Truck Features

▶ Cold Store Cabin*

A drop in temperatures doesn't mean a drop in performance. The fully insulated cabin is available in both standard and narrow chassis models. Heated windows and heaters built into the cabin doors maintain the optimum temperature for the operator.

▶ Overhead Guard

Four different drive-in racking overhead guards are available to meet various application requirements.

▶ More Fuel-Efficiency

The ECO-eLo energy efficiency mode can, depending on the application, reduce energy consumption by up to 20% without having a significant negative effect on overall productivity.

▶ Quick-Change Battery*

The side extraction system enables rapid battery changeover to maximise uptime and make battery changeover as easy as possible.

▶ Intelligent Technology

Integrated Dual CANbus technology ensures you will be able to identify an error or malfunction and fix it fast. Our unique innovative 'Get Home' function can even be activated after all functions come to rest, allowing the operator to drive the truck to an appropriate place of repair.

▶ Easy Access Service Areas

Easy access to motors, hydraulics and other components including a single plug-in access point for diagnostics.

⁽⁶⁾ See Truck dimensions for batteries tables.

⁽⁷⁾ Values in brackets are Optional.

⁽⁸⁾ Sideshift distance on either side is + / -75mm on all trucks. Reduction of + / - 25mm on MR16N.

All values are nominal values and they are subject to tolerances. For further information, please contact the manufacturer. Yale products might be subject to change without notice. Lift trucks illustrated may feature optional equipment. Values may vary with alternative configurations.

Specifications

Dimension Chart

Features

- 1 Touch screen technology**
An industry first including PIN access, height pre-select, fleet management information, weight indication, lift interrupt override and creep speed selection.
- 2 New joystick**
The joystick matches the natural handgrip of the operator.
- 3 Contoured arm rest**
Provides support for the right arm and integrated raised palm rest.
- 4 Wider spaced floor pedals**
Provide increased leg room.
- 5 Extensive floor space and pedal clearances**
For easier on and off access.
- 6 New full suspension adjustable seat**
With integral lumbar support reduces whole body vibration.
- 7 New steering column**
Mounted directly on to the chassis with sturdy slider mechanism.
- 8 New steering wheel design**
With soft touch and comfort grip knob. Provides a comfortable driving posture to alleviate build up of stress on the operators wrist, elbow and arm.

Standard Features & Options

Standard

Operator Compartment

- Intermediate step
- Grab handle on overhead guard post
- Grab handle under armrest
- AccuTouch mini-levers mounted on adjustable length armrest
- Full suspension seat – 60mm suspension travel – cloth upholstery
- Standard display
- Adjustable steering column
- Automatic park brake Yalestop
- 180° steering

Travel Performance

- Travel speed 11km/h (MR14/15 only)
- Travel speed 14km/h with electric load wheel braking (MR20/25, MR16HD, MR20HD only)
- Speed slow down mast reached forward
- Speed slow down on cornering
- Speed slow down over free lift

Lift performance/driver assist

- 3 stage mast/tilting carriage
- Simultaneous lift/reach functionality
- Mast positioning over free lift/main lift sections – fixed sensor mounting*
- Lift Comfort Package (MR16HD, MR20HD only)
- Lift Performance Package (MR16HD, MR20HD only)

Application Environment

- Top/front load wheel protection

Chassis

- Chassis width (max)
 - 1265mm (MR14, MR16, MR16HD, MR20 only)
Not available on MR16, MR25, MR20HD
 - 1125mm (MR16N only)
Not available on MR14, MR16, MR20, MR25, MR16HD, MR20HD
 - 1345mm (MR25 only)
Not available on MR14, MR16, MR16N, MR20, MR16HD

Standard Warranty

- Truck 12 months (2000 hours)
- Powertrain 24 months (4000 hours)

Options

Operator Compartment

- Joystick mounted on adjustable length armrest
- Full suspension seat – 80mm suspension travel – cloth upholstery
- Head rest (cloth version only)
- Synchronised seat cushion and back rest movement (cloth version only)
- Heated seat
- Antistatic seat (cloth version only)
- Vinyl seat upholstery
- Premium display with touch screen
- Keyless access

- 360° steering
- Driver select steering mode 180/360° (push button)

Lift performance/driver assist

- Simultaneous hydraulic functionality – 3 functions
- Lift Comfort Package⁽¹⁾
- Lift Performance Package
- Laser line fork positioning aid (above free lift)
- Auto side shift centering
- Auto fork levelling in the horizontal position
- Height preselector (with/without pallet detection device)
- Fork mounted camera/monitor
- Load weight indicator

Application Environment

- 5th hydraulic function
- Universal support bracket
- Beverage holder and document tray
- A4 clipboard
- Stretch film roll holder
- Lift limit with override (1 x height setting)
- Lift limit with override (2 x height setting)
- Lower limit (with override option)
- Flashing beacon
- Work lights x 2 (mast side) x 1 (drive side)
- Polycarbonate (lexan) protection on overhead guard
- Metal grid protection on overhead guard
- Side load wheel protection
- High temperature environment
- Side battery change – rollers
- Side battery change – tray
- Extension cable
- Drive-in overhead guard (w 930 x h 1400 / w 930 x h 1700mm)
- Anti-static drive and load wheels
- Wet surface drive and load wheels
- Side guidance rollers
- DC/DC converter (choice of 12V/48V, 24V/48V, 12-24V/48V options)
- Audible alarm (choice of fork leading, forks trailing, both travel directions)
- Load backrest (choice of heights 1000/1500mm)
- Extendable forks - double deep option
- Speed reduction to 3km/h with forks raised
- Cold store cabin

Chassis/Battery Sizes

- Chassis width (max)
 - 1345mm (MR20HD only)
- Battery sizes⁽²⁾
 - 420-465Ah (MR14, MR16, MR16N only)
Not available on MR20, MR25, MR16HD, MR20HD
 - 560-620Ah (MR14, MR16, MR16N, MR20, MR16HD only)
Not available on MR25, MR20HD
 - 700-775Ah (MR14, MR16, MR16N, MR20, MR25, MR16HD, MR20HD only)
 - 840-930Ah (MR25, MR20HD only)
Not available on MR14, MR16, MR16N, MR20, MR16HD

*Not available on MR20HD

⁽¹⁾ Includes: End of stroke slow down on lift, Soft stop on lowering, Height controlled mast cushioning over Free Lift/Main Lift mast section, Height indicator

⁽²⁾ DIN C Battery on MR14/MR16/MR20/MR25/MR16HD/MR20HD, DIN B Battery on MR16N
