Three-wheel and four-wheel
counterbalanced electric forklift

3,000-4,000 lbs.

Reliable performance.

Yale® three-wheel and four-wheel counterbalanced electric forklifts are the reliable solution to multi-task in your facility. The time tested and field proven ERP-VT/VF platforms deliver lower cost of operation with reduced maintenance and increased uptime, thanks to our ongoing commitment to advanced engineering and product improvement.

ERP030VT/VF

ERP035VT/VF

ERP040VT/VF

ERP030-040VT/VF forklifts were designed to excel in demanding applications indoors and out, from trailer loading/unloading to cross docking to inventory replenishment. In narrow aisles and in tight spaces, their compact footprint and maneuverability delivers maximum productivity shift after shift.

PRODUCTIVITY

Equipped with efficiency boosting features that help keep the operator productive all shift long

OPERATOR COMFORT

Operator compartment optimizes comfort and maximizes performance

DEPENDABILITY

Time-tested technology for reliable operation, day in and day out

LOWER OPERATING COST

Save time and money with longer service intervals and fewer parts

DID YOU KNOW? →

Best-in-class operations ship over 99% of orders without damage.¹

Higher productivity, from trailer to rack and back.

When one truck can tackle nearly any application from loading/unloading to stacking to pallet retrieval, you can reduce or eliminate bottlenecks caused by staging and the expense of zone specific equipment. The ERP-VT/VF helps to minimize downtime with easy service access and simple diagnostics and programming that keep operational expenses in check.

ZERO TURN RADIUS

Extremely tight turning radius with dual independent front wheel AC drive motors that rotate drive tires in opposite directions helping to minimize the inside turning radius providing excellent maneuverability.

MULTIFUNCTION DISPLAY

Features four operator selectable performance modes, indicates battery discharge, steer angle, travel direction, traction throttle and truck speed.

ELECTRIC PARKING BRAKE

Engages when truck stops, simplifying operation.

INTEGRAL SIDESHIFTING FORK POSITIONER +

The operator can adjust the fork position to accommodate various pallet sizes without getting off the unit.

DID YOU KNOW?

Best-in-class operations ship more than 99% of orders on time.¹

HI-VIS™ MAST

Offered as standard equipment, the Hi-Vis mast provides excellent visibility through and around the mast, without sacrificing rigidity to help keep operators working confidently.

EASY SERVICE ACCESS

Engineered for simplified maintenance, featuring easily removable floor plates that require no tools, and a rear-hinged hood that provides convenient access for servicing the truck.

YALE VISION +

Complete telematics solution that provides insights and controls to help improve operator behavior, control access to equipment, confirm pre-shift checklist completion, and monitor equipment and operator utilization.

+ = *Optional equipment*

Designed with comfort in mind.

With skilled operators harder to find and retain, you need a responsive forklift that's easy to drive and comfortable all day long. ERP030-040VT/VF three-wheel and four-wheel counterbalanced electric forklifts standard and optional ergonomic features help reduce operator fatigue and injuries. The thoughtfully placed controls allow for exacting precision while handling loads.

LOW STEP IN HEIGHT FOR EASY ACCESS

3-point entry/exit with low step in height, large contoured grab handles and deep, anti-skid steps make getting in easier and reduce the chance of operator injuries.

ROOMY OPERATOR'S COMPARTMENT

With plenty of head and foot room, a cushioned floor mat plus an ergonomic and supportive seat, ERP030-040VT/VF series forklifts deliver best-in-class comfort.

REAR DRIVE HANDLE +

Forklift operators spend a lot of time driving in reverse. Take the twisting and straining out of reverse operation with an optional rear drive handle.

TELESCOPING STEER COLUMN +

It's a fact, no two operators are the same. The optional telescoping steer column with tilt memory offers superior adjustability to accommodate a wide range of operators.

HYDRAULIC CONTROLS

Optional armrest with AccuTouch mini-levers offer fingertip control of travel direction, horn, and hydraulic functions. Standard mechanical levers are low effort and ergonomically placed, providing operator comfort.

LOADED WITH STANDARD FEATURES

Various standard features help the operator remain productive and comfortable including an operator presence system and power-assisted braking.

+ = Optional equipment

Engineered for the long haul.

Forklifts are essential to keeping the entire operation moving, so you can't afford to have a unit out of service. Yale ERP030-040VT/VF three-wheel and four-wheel counterbalanced electric forklifts are designed with quality components and simple maintenance requirements to greatly diminish downtime and unplanned service.

AC TECHNOLOGY

Proven AC traction and hydraulic motors completely eliminate brushes and associated rigging for reduced maintenance costs.

AUTO DECELERATION SYSTEM

Help extend brake life with traction motor regenerative braking, and electric park brake engagement when AC traction motor reaches zero.

WET DISC BRAKES

Wet disc brakes are standard equipment on ERP030-040VT/VF series forklifts. They provide 5 times more service life vs. conventional dry drum or disc brakes. The enclosed system is impervious to water, dust and contaminants and requires no adjustments.

THERMAL MANAGEMENT SYSTEM

Protect motors from overheating with auto-monitoring internal temperature sensors.

ELECTRICAL SYSTEM w/ CANbus COMMUNICATION

Fewer connections and less complex wiring helping simplify and reduce maintenance.

HYDRAULIC CONNECTIONS

All hydraulic connections are equipped with dependable O-ring face seals with a leak-free design.

About Yale

Yale Lift Truck Technologies leverages over a century of material handling experience and substantial investment in innovation to bring the most advanced technology-driven lift truck solutions to market. The company offers a full line of award-winning lift trucks, including reach trucks, order pickers, turret trucks, pallet jacks and trucks, pallet stackers, tow tractors and counterbalanced forklifts, as well as powerful operator assist solutions, proven robotics and a wide range of power sources to help customers adapt to today's demanding supply chain. Yale and its independent dealer network support these solutions with comprehensive after-sales service, parts, financing and training.
